Experiencing God in the Spiritual Tradition

Our **Spring Seminar** will introduce us to Etty Hillesum. Etty was a young Jewish woman who lived in Holland during the Nazi occupation of that land. During that time she ministered to those that were being transported to concentration camps and eventually she herself joined them.

By means of her diary entries, we will be privileged to sit with her as she reveals her most intimate thoughts and feelings; as she awakens to God in her life and grows in an ever deepening relationship with God. We will engage with her as if she were our directee. Our journey with Etty will once again highlight the challenge and the privilege of engaging with directees as they explore, deepen and experience their relationship with God.
