Spring 2012

PERCEPTIONS and EMOTIONS IN PRAYER

The second in a series of eight week seminars on Perceptions and Emotions: Ignatius shaped and gave flesh to the Spiritual Exercises after contemplating his own life's journey to God and discovering the place of perceptions and emotions in shaping that journey. Ignatius is focused on engaging affectively with a God who loves us.

As directors, we look for those movements in a directee's prayer that foster and deepen one's ongoing relationship with God.

The Spring seminar continues to explore perceptions and emotions in prayer. It is intended to help directors discover in practical terms the place of perceptions and emotions in their own ongoing relationship with God and in that of their directees. The Fall seminar is not a requirement for those interested in registering for the Spring seminar.
